FRIDAY, NOVEMBER 16, 1866.

IN MISSISSIPPI a census has been taken. In forty-four counties seventeen have increased their white population 10,906, and twenty-seven counties decreased 17,705. Net decrease in forty-five counties 6,799. In thirteen counties there has been an increase of 7,709 blacks, and in thirty-one counties a decrease of 53,374 blacks. Net decrease in forty-four counties 45,575. The per centage of white decrease is two and a half per cent.; that of the blacks thirteen per cent. Sixteen counties, from which we have no returns, had, in 1860, a white population of 74,702, and a black population of 85,532. If the decrease of population should be similar in the other counties, the number of negroes in the State would be reduced, in round numbers, from 437,000 in 1860, to 380,000; and the white population from 353,000 to 345,000, making a total estimated decrease of population in the State, during the last six years, of about 8,000 whites and 57,000.

THE report of the Controller General of Alabama shows the finances of that State to be in a wholesome condition. The receipts from all sources for the fiscal year ending September 30, were $669,462.19, which was increased to $679,368.70 by the unexpended balance in the treasury. The total disbursements for the same period were $655,578.93, leaving the balance in the treasury (outstanding amounts included) $31,950.55. During the year 1863 the State Commissioner negotiated a loan of nearly $15,000 in gold to pay interest on the foreign debt. In addition to the prompt meeting of the current expenses of the State, this loan has been extinguished. The Controller estimates the receipts for the current year at $850,000, and the expenses at $804,439.

A TELEGRAM from Chicago states that the Democratic leaders there sustain the *Times* in repudiating the President's Policy, and demanding equal rights and universal suffrage, but that the rank and file rebel. All this is natural. The leaders have no strong convictions, but go for what they think will win. The masses have been educated by these leaders, for thirty years, to hate equal rights, and to trample with fiendish malignity on the lowest plane of society. These masses have convictions, coarse and brutal, which follow their nerves to the minutest fibre. If what they were taught to believe and feel had a foundation of truth and reason in it, they do not see why it is proved false by defeat. Does anybody?

GOV. PATTON, of Alabama, in his annual message to the Legislature, frankly acknowledges that the freedmen are generally entitled to credit for good behavior. He recommends a stay law to prevent the collection of debts—a measure always of doubtful expediency; and opposes the Constitutional Amendment. The Southern people will learn after a while that the loyal men of the nation are masters of the situation, and that if the Southern States do not consent to such moderate conditions as are now imposed, more stringent ones will follow, if need be, even to the obliteration of all their old organizations, and to the reduction of them to the subordination of territorial dependencies.

RUMORS run to the effect that Maximilian is to have the crown of Poland to compensate his loss of Mexico. To accomplish this the consent of Russia, Prussia and Austria must be obtained. The two former powers are now in close relations; but the latter will not like to spare more territory or population, if she can help it. The resurrection of Poland would be an event worthy of celeration throughout the civilized world, as the best atonement possible for a great wrong, brutality committed and long enforced.

AN EUROPEAN PRACTITIONER has used raw meat, with great success, as an article of diet, in the treatment of pulmonary consumption. In addition to this treatment it is now proposed to add brandy, beginning with a tablespoonful and increasing up to four ounces. If this latter prescription shall become fashionable, a large increase of consumptive cases may be anticipated.

GOV. CUMMINGS, of Colorado, undertakes to defend himself from the charge of arbitrarily and wrongfully giving the certificate of election as delegate to Congress to the Conservative candidates. His defence consists in words; not facts. This is one of his chronic infirmities. Pray, Governor, have done with it.

THE continued stringency of the money market in the western States is creating apprehensions of a commercial revulsion. Heavy failures are predicted as about to occur at Cincinnati.

COL. D. B. M'CREARY, of Erie country, will be earnestly pressed for the Speakership of the House of Representatives at Harrisburg, at the approaching session.

AT the Franklin county Convention, to instruct for United States Senator, Curtin had 66 votes; Grow, 2; Stevens, 7, and Cameron, 1.

THE speculators in breadstuffs are suffering "some;" yet, we hear no pious souls fervently ejaculating, "Good Lord, deliver them."

Revolution in Burmah.

Rev. Dr. Stevens, Baptist missionary at Rangoon, has written home an account of the recent revolution in the kingdom of Burmah, in which the king has been deposed by two of his sons. Several of the principal officers of state, including the heir apparent, have been put to death; and, it is said, as usual in such cases, many of the young princes.

"The king, it appears, was at a country seat when the outbreak occurred, attended by a few followers. Then when his rebellious sons approached him, it is said he asked them why they did thus. The elder replied in the most respectful terms that it was not from any enmity towards him, but because they could not endure the severity of the heir apparent. The king then took off his ring and gave it to him, and also the royal sceptre. He is now in confinement, and his son reigns. However, we do not suppose the end is yet. The British residents, all the Europeans, with several Armenian families, have left the capital and are on their way down to Rangoon."

The missionaries are expecting a more liberal and intelligent government as the result, and hope to be able again to send their men to the ancient capital, and then to extend operations all over the country.

—About $45,000 worth of stock has been manufactured into 950,000 hats and bonnets in the establishments for this purpose in Franklin, Mass., during the present year. About one-eighth of the stock is of domestic manufacture, and seven-eights imported. The value of the goods made is nearly $1,300,000.

Mexican Matters.

SAN FRANCISCO, November 14.—Letters from Generals Alvarez and Diaz, via Acapulco, to November 5, state that four vessels of the French fleet had left that port. The garrison consists of one hundred and eighty men. The news of the capture of Oxaca by the Liberals is confirmed. Another account says that three vessels of the French fleet had proceeded from Acapulco to Mazatlan to withdraw the French troops from the latter place and carry them to San Blas. General Alvarez has fixed his headquarters three miles from Acapulco, which place he expected soon to capture, having received from San Francisco a battery of rifled cannon, accompanied by twelve veteran gunners.

Wheat closed yesterday at $2,05 per 100 lbs The market is unsettled.

The schooner O. J. Weston, which left here September 29th, is said to have delivered a cargo of arms and ammunition at a Mexican port at Oxaca, which were delivered on board the ship at $2,12½ per hundred pound.

Fenian Trials—Prisoners Discharged.

TORONTO, C. W., November 15.—The Fenian trials which have occupied the Court during the past eleven days, will close temporarily on Saturday next, as the Court will not sit during the term. It was at first supposed that such of the prisoners as had not been brought to trial before the Court rose, would have to await their trials at the January Assizes, but it is probable that an arrangement will be made by which they will be brought before a Court sooner. A special Commission is expected to issue in a few days for holding their trials, immediately after the term closes, a fortnight from next Monday. It will be Mr. Hagerty's turn to take up the business at that time. Two Fenians were discharged from custody yesterday, sufficient evidence to place them on trial not being forthcoming, and two more will be discharged to-day for similar reasons.

Late Elections in Detroit—Result Changed—Hardships Experienced.

DETROIT, November 15.—Considerable feeling is manifested here by the Republicans, over the decision of the Board of County Canvassers, who yesterday threw out the votes of the Fifth and Sixth wards, on account of a surplus of votes being returned over the number on the fall list. The excess being four in one ward, and eight in another. This action causes the election of the entire Democratic County and Legislative ticket.

The crew of the schooner Adriandack, recently underwent extraordinary hardships on Lake Huron. The schooner was dismasted and drifting about on the Lake, for twelve days, nine of which they were out of sight of land; the crew subsisted nine days on boiled wheat.

Status of Mississippi—Supreme Court Decision.

NEW ORLEANS, November 15.—The Supreme Court of Mississippi has decided that the State never lost its organization as a government by reason of secession or war, but that it was, in all respects, not only *defacto*, but *dejure* a State, and that the functions of government are rightly and Constitutionally exercised by those who exercised the executive, legislative, and judicial functions during that time, within the State. The opinion of the Court was delivered by Judge Harris. Judge J. Shallyerger, of Mississippi, has also decided that sales and executory contracts made before the surrender, founded upon Confederate Treasury notes as a consideration, were valid and can be enforced now. Judge Clayton, some time since, decided to the contrary. These cases go to the Supreme Court for final adjudication.

Recommendations Concerning Jeff. Davis and the Assassination Plot.

NEW YORK, Nov. 15.—A special to the *Post*, from Washington, says: Secretary McCulloch, in his annual report, will simply repeat his former recommendations as far as currency is concerned. He will ask for authority to issue long 5 per cent. bonds, which shall be exempt from taxation, and for discretionary power to reduce the volume of currency.

It is understood that soon after the opening of Congress, the House Judiciary Committee will review the whole subject of the assassination plot and examine witnesses relative to Jeff. Davis.

Generals Grant and Sickles.

WASHINGTON, Nov. 15.—There must be a mistake in the statement that Gen. Grant is in attendance at the horse fair near Baltimore, as it is said at the headquarters of the army that he has not been out of Washington for the last two days. Maj. Gen. Sickles is among the latest arrivals from the South.

THE FENIAN TRIALS.

Thomas School Convicted and Sentenced to be Hanged—Thomas Donohue Acquitted.

TORONTO, C. W., November 15.—The Court met at ten o'clock, when the Fenian trials were resumed. In consequence of the inclemency of the weather the attendance of spectators was small.

Thomas School was placed in the dock. He is between twenty and twenty-five years of age, and did not appear to feel his serious position. He was charged under the six counts.

Mr. McKenzie objected that the prisoner was charged upon two sets of counts, specifying two different offences, and that it was the duty of the Crown to elect to which set they would proceed.

His Lordship overruled the objection.

Mr. Harrison opened the case for the Crown, in which he explained to the jury the law of the case. He told the jury it was their duty, after they had heard the evidence, to say whether the prisoner was an American citizen or British subject.

After an examination of the witnesses, Mr. McKenzie addressed the jury on behalf of the prisoner. Mr. R. A. Harrison replied on the part of the Crown.

His Lordship then commenced his charge, and having read over his notes to the jury, stated that the defence set up of intoxication was no defence in law. If the jury believed the evidence, they should find the prisoner guilty on the fourth and fifth counts, that of being found in arms with a hostile intent, but the circumstances were too doubtful to convict him on the sixth count, that of committing an act of hostility.

The jury then retired, and after an absence of five minutes, returned with a verdict of guilty on the fourth and fifth counts, and not guilty on the other.

Hon. J. H. Cameron moved for judgment on the prisoner.

Mr. McKinzie moved, in arrest of judgment, that the verdict was found on two Counts and that the prisoner could not be found guilty on the same indictment of two distinct offences, and on the same grounds as in the last and former cases of conviction, and that the offences in the 4th and 5th Courts are not offences created by the second section of the act.

The prisoner in reply to his Lordship, said he had nothing to say why the sentence of this Court should not be passed upon him. His Lordship then sentenced him to be hanged on the 15th of December.

Patrick Donohue was then placed in the dock, but the Crown failed to prove any case against him and his Lordship directed an acquittal. The prisoner, before leaving the Court, took up his hat, and addressing his Lordship, said: "God bless you, my Lord, and gentlemen." He then left with his friends.

This concludes the Fenian trials for this week.

FOREIGN NEWS BY THE PERSIA.

London "Times" on American Affairs—New Reform Bill—Coming to America.

NEW YORK, Nov. 15.—The following is additional by the steamer Persia:

Mr. Walter, principal proprietor of the *Times*, who is at present traveling in America, has addressed a letter to the chief editor of that journal, Mr. Delane, expressing his disapproval of the policy followed by the editor of the *Times* relative to American affairs.

Mr. D'Israeli and his ministerial colleages, have drawn up a new reform bill, which will be taken into consideration and discussed at the next Cabinet Council.

According to the terms of Mr. D'Israeli's bill every house tenant would obtain suffrage, and apparently there is no difference between it and the bill introduced by Mr. Bright, who demanded only household suffrage. But Mr. D'Israeli's couples his qualification for the franchise with the condition of a three years residence, although the majority of the workmen who occupy the entire houses in England pay a weekly rent and are compelled by a frequent change of employment to also move to different neighborhoods.

Mr. D'Israeli's bill will, therefore, not be accepted by the Liberal party.

Prince Albert of Prussia will sail out shortly for the United States, accompanied by the members of a commission, entrusted with considering the organization of the American navy, and to draw up a report thereon, for presentation to the King of Prussia, who has purchased the American monitor for $1,600,000.

The *Herald's* correspondent learns that the Emperor of Brazil, Don Pedro II., is soon to pay a visit to the United States to study American Institutions.

Fenian Prisoner Escaped.

TORONTO, Nov. 15.—A Fenian prisoner named Thomas Ryall escaped from jail this morning. The plan was effected in the most daring manner, and there are strong suspicions that he must have had accomplices.

BUFFALO, November 15.—A Toronto special to the *Express* gives the particulars of Ryall's, one of the Fenian prisoners, escape from jail. On turning Queen's evidence, he was given greater freedom, and was permitted to sleep in the chapel with the turnkey. Last night he retired to bed at the usual hour, and at 2:10 this morning was seen lying in bed as usual with his clothes on. At 3:20 one of the turnkeys had occasion to go up stairs and found Ryall *non-est.*

The other turnkeys were immediately aroused, and the police in the Third divisions of the city, were notified. The escape was effected in so daring a manner that he must have had an accomplice to assist him. From an examination of the surroundings, it appears that Ryall, after leaving the chapel, went down stairs to the next flat and entered a room used for the storage of bedding &c., he then took a heavy tick mattress out, tore it into strips and made his way to the door in the third flat, which gave exit to the open air on the east side; this door was about thirty feet from the ground and strongly fastened.

Ryall had provided himself with an iron bar, with which he wrenched open the door, and after tieing the manufactured rope to a portion of the woodwork on that flat, lowered himself down into what is known as the outer yard, and escaped through a fence on the east side, which is in a very delapitated condition.

The Army of the Tennessee.

CINCINNATI, November 15.—A resolution was passed fixing upon Clyde, Ohio, the burial place of General McPherson, as the proper place for a monument.

After transacting some unimportant business, a resolution was adopted to hold the next annual meeting at St. Louis, the time to be indicated by the President, whereupon the Society adjourned.

After the adjournment, the members, in a body, visited the hall of the Board of Trade, by invitation, where they were cordially received by the merchants of the city.

Presbyterian General Assembly.

MEMPHIS, Nov. 15.—The General Assembly of the Presbyterian Church South, convened here to-day, Rev. Geo. Howe, Moderator of the last General Assembly, delivered the opening address. Rev. Andrew H. A very large number of ministers from Southern States and Presbyterians were in attendance, and the greatest harmony and Fraternal feeling characterized the proceedings.

Fernando Wood's Position.

NEW YORK, November 15.—Fernando Wood denied the published rumors concerning him, and says: I have not advocated negro suffrage, either in Washington or elsewhere. I am not in favor of the proposed amendment to the Constitution; and I have taken no part in favor or against any candidate for naval office at New York; nor have I in any way taken part in that matter.

President Johnson—How One of His Cabinet Regards Him.

NEW YORK, Nov. 15.—The *Times* gives prominence to the following portion of a communication, to-day, addressed by a member of the Cabinet to a friend of the Administration in New England who seemed to be apprehensive that the difficulties between the President and Congress might induce action on the part of the former, which would tend to widen the breach, if it did not put important interests in point. The member of the Cabinet says: Notwithstanding his long public career, few men seem to be less understood than President Johnson. That he is a man of strong convictions and earnest purposes, is evident from the manner in which he advocated and pushed forward important measures in Congress, like the Homestead bill, and the stand which he took against secession and in favor of the Government during the late civil war. He believes that the manner in which he proposed that the Government should deal with the Southern States was not only a magnanimous one, but the only one likely to result in a speedy and hearty reconciliation between the sections, and he has felt it to be his duty to sustain his views by the exercise of such powers as the Constitution had clothed him with. But while this has been, and doubtless will continue to be his course, he will violate no law, nor fail to perform the duties which are legally devolved upon him. He will veto every bill that he may regard unconstitutional, no matter how unpopular it may be for him to do so; but he will execute with scrupulous fidelity all laws, especially those to which he has declined to give his Executive sanction. The apprehension which you seem to feel, and which many others share with you, that Mr. Johnson will attempt to force Southern representatives into Congress, or do any other imprudent thing by which the public peace will be disturbed, or the public credit be deranged, is utterly unfounded. While he will exercise fearlessly the power which he possesses under the Constitution in furtherance of the measures which he thinks are best calculated to promote the public wealth, he will not quarrel with Congress for pursuing the same independent course. He regrets the disagreement between the Legislature and Executive branches of the Government, and would, I doubt not, yield much to effect a reconciliation. He will not, however, sacrifice his principles nor violate the Constitution according to his interpretation of it, no matter what pressure may be brought to bear upon him. He means to do right as he understands the right, and will trust to time for the vindication of his course. He will be as true to the Constitution and the Government as President of the United States, as he was true and steadfast to the Union in the darkest days of its trials.

Order No. 44—The Redemption of Seven-Thirties.

WASHINGTON, Nov. 15.—The President, Secretary of War, and General Grant, are denying that they have revoked Order No. 44.

The rapid conversion, at the Treasury Department of Seven-thirty notes and Five-twenty bonds is attended with many difficulties on account of the number of lost or stolen Seven-thirty notes sent to the Department. Banks and persons dealing in Seven-thirties should remember that although the Coupon bonds of the Government are issued payable to bearer, so that they will pass by delivery, they are good, although lost or stolen when in the hands of a bona fide holder. The case is different with the Seven-thirties which are issued in blank, but with the words "or order," instead of "or bearer," imprinted on the face. As long as a Seven-Thirty note remains thus in blank, it passes by delivery like a coupon bond, and a bona fide purchaser for value can collect the name, notwithstanding it has been lost or stolen; but in case the holder of the Seven-Thirty fills the blank space with his name, the note then becomes his property, payable to him on order and he cannot thereafter be deprived of his title, by any loss or larceny of the note, any more than the holder of a check or draft payable to his order, and this is the law notwithstanding his name may have been so skilifully extracted by acid, or otherwise, as to leave no trace of the name if the holder of the note, can prove clearly that his name was once written upon the face of the Seven-Thirty, his title is good, notwithstanding the erasure, and even against a bona fide holder for value, and will be recognized by the Treasury Department and, upon proof, the note will be paid to him. All persons dealing in Government securities ought carefully to bear in mind the foregoing peculiarity of Seven-Thirty notes which may, as stated, become converted into negotiable securities, payable only to order, which cannot be the case with any of the coupon bonds of the Government.

Splendid Banquet to Cyrus W. Field.

NEW YORK, November 15.—A magnificent banquet was given to Cyrus W. Field, to-night, by the members of the Chamber of Commerce, at the Metropolitan Hotel. Three hundred guests were present. A. W. Low, Chairman of the Chamber of Commerce, presided, and made the opening speech. Mr. Field replied at length, in which, after giving the history of the Atlantic telegraph and an account of his early asssociates, he eulogised the British government for its zeal in the subject at present. The aim has been to secure prompt and certain transmission of messages. The two cables do their part well. If anything, the old cable works better than the new; but the new is constantly improving. The cable could now be worked with a battery composed of a gun-cap and a strip of zinc excited by a drop of water. He would not be content until a message reached New York in twenty minutes. In palliation of the high tariff, he stated that twelve millions had been sunk.

Vessels in Trouble.

GALVESTON, Nov 14, via NEW ORLEANS, Nov. 15.—E. H. Hunt, agent of the Board of Underwriters, reports that the steamship Gen. Sedgwick went on inner bar, yesterday morning, and in the afternoon a heavy wind created considerable sea. The Captain left the ship and came up to the city for assistance. At one o'clock a lighter was sent down with a stevedore and a gang of men to lighten and pump the ship. Captain Hawiland, with the steam tug Elizabeth Read, was sent down with another cable and steam pump, and the lightening of the ship, and heavy sea, with a very high tide, she came off, and is now discharging several cases of goods, damaged, which have been leaking, and, we fear, more will come out damaged. The schooner Adolphe Huber and the brig Florence collied with the Sedgwick, and all three are somewhat damaged.

Robbery by a Clerk of the New York Herald—Damages Recovered.

NEW YORK, Nov. 15.—This morning Charles Deeave, a clerk in the counting-room of the *Herald*, left for parts unknown, taking with him a package containing one thousand one hundred and thirty-five dollars in greenbacks and currency, which he had abstracted from the safe in the office.

Mrs. Mary M'Bennett recovered a verdict of three thousand dollars against the Second Avenue Railroad Company for injuries sustained by her in being thrown off a car, which the conductor started while she was in the act of stepping out.

NATIONAL WOOL CONVENTION.

A Protective Tariff Wanted—Yesterday's Proceedings—Adjournment.

Special Correspondence of the Pittsburgh Gazette.

CLEVELAND, November 15, 1866.

Only a free and enlightened country like our own could draw together, in council, so much wisdom and intelligence from among the honest yeomanry of the land as met yesterday in mass convention in this city. We have attended political conclaves, where the sagacious statesman, the polished orator and wily politician assembled to advance some national scheme, or to enunciate new principles in politics, but we have never been present at a national meeting where more native talent and intelligence prevailed than at the National Wool Growers' Convention just ended. Each delegate appeared to be thoroughly acquainted with every feature of the interest he represented, and his views and ideas upon the subject were clothed in the plain garb of truth and sincerity. All felt the urgent necessity for home protection, and claimed that under the present system of tariff, the advantages which should be given by the Government to its own citizens were conferred upon Foreigners, who grew rich out of the partiality, while Americans found profitless markets for their wools. They felt that the National Legislature would, at its next session, listen to the demands of the great agricultural interest of wool growing, and afford the reasonable protection desired, viz: establishing a tariff that will equally protect the wool growers and the manufacturers of wool, and prevent both from suffering in competition with the rich producers who pay low wages in foreign countries. The tariffs which have hitherto been established were either inadequate to the wants of the wool-growers or were in direct opposition to the interests of the wool manufacturers. This caused antagonism between these two great bodies, and each busied itself in undoing and repealing the legislation accomplished by the other. But a new order of things has dawned. The manufacturers join hands with the wool growers, and both elements petition Congress for the passage of the tariff bill which found adoption by the House, but was postponed by the Senate, at the last session. The effort is to be earnestly renewed to have the bill passed, and hence the assembling of the Convention, which has just closed its labors. The meeting was a success, and the greatest unanimity of feeling prevailed. The attendance was large, though the assembly might more properly be styled as a meeting of the Executive Committee of the wool growers of the Union.

WEDNESDAY'S PROCEEDINGS.

At two o'clock on Wednesday afternoon, the Convention assembled at Kelly's Hall, on Superior street, and organized by electing Hon. R. M. Montgomery, of Ohio, as Chairman, and W. T. Greer, of Ohio, as Secretary. Upon assuming the duties of the position the President made a brief and able address, in which he carefully reviewed the question of home protection, and explained the provisions of the proposed tariff bill.

Major Harry White, of Indiana county, Pa., requested that the proposed Tariff bill be read in order that the members of the Convention might thoroughly understand its measures. The bill was read by the Secretary, after which Mr. Samuel Harris, of Catskill, N. Y., was invited to address the meeting. He congratulated the wool growers upon the union which they had formed with the manufacturers, as neither interest could well live and prosper without the other. If too much is not demanded of Congress, the tariff bill will probably pass at its next session. The gentleman concluded by earnestly recommending union and work among the wool growers till the tariff demanded be granted.

Major Harry White, of Pennsylvania, took the floor and stated that although he had come to the Convention to be instructed rather than to instruct, still he felt that the best way to expedite matters was to make positive demand upon Congress for protection, claiming that, as a powerful agricultural body, their rights must be respected, and their interests guarded. He would therefore move that a committee be appointed to draft resolutions upon the subject as expressive of the sense of the meeting. After a brief but animated discussion, indulged in by Messrs. Pottle, of New York, Glenn, Le Moyne and Struble, of Pennsylvania, Colonel Harris, of Ohio, and Mr. Parsons, of Illinois, the resolution passed, and the following committee was appointed: E. B. Pottle, of New York; E. Hammond, V. Wright, of Vermont, as a representative of the New England Wool Growers' Association; N. S. Townsend, Ohio; Dr. F. Julius Le Moyne, Pennsylvania; F. Fassett, Illinois; Eli Stillman, Wisconsin; Lewis Wiley, Michigan.

The Convention here adjourned for supper, and re-assembled at the same place at eight o'clock, when, after reorganizing, the following resolutions were reported by Mr. Pottle, Chairman of the Committee:

RESOLUTIONS.

Resolved, That we believe the steps taken by the National Association of Wool Growers and Manufacturers to secure a recognition of the mutuality of their interests, will, if followed out in good faith, insure the increased prosperity of both.

Resolved, That the citizen who bears the burden of the Government is entitled to the advantages of the markets of his country, and to compel him to pay for the privilege of such markets more than is required of foreigners is unwise and unjust, and in the end will prove disastrous.

Resolved, That the Tariff Bill, as it relates to wool and woolens, agreed upon by the Joint Committee of Wool Growers and Wool Manufacturers, now before Congress, is one calculated to insure increased prosperity to grower and manufacturer, and will tend to the general prosperity of the country, and that we will stand firmly by it, and seek by all means its early adoption as a law.

Resolved, That copies of these resolutions be forwarded to the Hon. David A. Wells, to the Committee of Ways and Means, and to the Senate Committee having charge of said bill.

After the resolutions were read by the Secretary, a resolution was passed that they be acted upon separately.

Mr. Jeptha Pottle, of New York, took the floor, advocating the resolutions, and was followed by other speakers. The first two resolutions were unanimously adopted and the consideration of the others was held over for next day's meeting. The Convention then adjourned to meet next morning.

THURSDAY'S PROCEEDINGS.

The Convention re-assembled this morning at nine o'clock, and proceeded with the action upon the resolutions reported the previous evening. The third resolution was stoutly opposed by the Illinois delegation, they averring that the bill presented to Congress was not popular in that State, and that another could be substituted which would answer the purpose aimed at, and prove satisfactory to all of the States. After some spirited debate, the Illinois delegation withdrew their objection, and as published above the resolutions were unanimously adopted.

On motion it was decided to levy upon each State a tax to defray the necessary expenses incurred by the Association.

Col. Harris, of the Ohio delegation, offered a resolution providing for the appointment of Messrs. Montgomery of Ohio, Pottle and Randall, of New York, and Garland, of Illinois, as a committee to visit Washington next winter, to urge upon Congress the urgent necessity of immediately considering the tariff bill. The resolution was unanimously adopted.

Resolutions of sympathy with the President of the Association, Hon. H. S. Randall, of New York, who is dangerously ill, and of thanks to the Joint Committee on Conference of the Wool Growers and Wool Manufacturers, were adopted.

After the transaction of some minor business, the Convention adjourned *sine die.*

The only journals represented at the Convention were the Pittsburgh GAZETTE, Chicago *Republican*, Cincinnati *Commercial*, New York *Tribune*, and the Cleveland *Leader* and *Herald.*

The Pennsylvania delegation was composed of the following well-known heavy wool growers: J. McDonald Glenn, Dr. F. Julius Le Moyne, General Harry White, James Slocum, Asbury Strubler, Samuel Hoagland, Gideon H. Wagner, T. A. Bemis, P. D. Bryant.

Meeting of the New Teachers Association.

A meeting of the new Teachers' Association will be held to-morrow (Saturday) morning at ten o'clock, in the Fourth Ward School House in this city. The programme will comprise the following exercises:

Inaugural address by the President elect, Geo. J. Lucky, Esq.

Lecture by E. R. McGregor. Subject: "Milton's Paradise Lost."

An essay by Miss Helen Renwich. Subject: "Our Human Nature."

A general discussion of the question, "Should State authority select a uniform series of text books, to be used in the public schools." Discussion to be opened by Mr. J. A. Snodgrass.

This meeting will be one of great importance, and should be fully attended.

Recovery of the Stolen Rings.—We learn that the diamond rings stolen on Tuesday evening from the jewelry store of Johnson & Scott, on Liberty street, were recovered last evening. It appears that immediately after the robbery, the two boys who stole the rings, placed them in the hands of a third party residing in the Third ward. The receiver, it seems, became frightened, and last night placed the stolen property in the hands of Alderman Strain. More will be done in the matter to-day.

The Methodist Protestant General Conference—Second Day's Proceedings.

Yesterday morning, at half past eight o'clock, the General Conference reassembled, Rev. Dr. Scott occupying the chair.

Religious exercises were conducted by Rev. R. Ross, after which the minutes of Wednesday's session were read and approved.

Rev. Messrs. Ogle and Knight were introduced, and invited to honorary seats in the body of the Conference.

On motion of Dr. J. M. Flood, the hearing of Rev. H. B. Knight, fraternal visitor from the Wesleyan Methodist connection, was made the order of the day at 11 o'clock a. m.

The President announced the following Standing Committees:

Committee on Publishing Interests—Messrs. William Gunckle, A. Seamen, Wm. Miller and Rev. Stultz and P. J. Strong.

Committee on Missions—Rev. J. S. Thrapp, Rev. O. R Carlton, and F. Douglas.

On College Interests—Rev. Dr. Jonathan M. Flood, John Redman, Rev. E. A. Wheat, F. Scott, Rev. S. Morrison.

On Ministerial Education—Rev. T. B. Graham, Rev. V. Lucas, Mr. Gregory White, Rev. J. W. Southard, Rev. J. J. White.

On Statistics—Rev. A. H. Basset.

On Boundaries—Rev. M. V. Evans, Rev. N. R. Swift and Mr. N. Hiller.

On Union—Rev. Dr. George Brown, Rev. K. Rose, Rev. Wm. Hastings, J. Sergeant, M. D., Rev. G. M. Scott.

On Sunday Schools—Rev. J. Hamilton, Mr. G. W. Kent, D. Chandler, Rev. O. R. Carlton, and Mr. J. L. Scott.

On Finance—Messrs. W. Rinehart, H. B. H. Hardsock, W. F. Hughes.

Rev. Dr. Brown offered the following as an additional rule of order, and on a vote being taken, it was adopted:

"No substitute shall be entertained until the question under consideration is laid on the table; nor shall any amendment be entertained which amounts, in the judgment of the chair, to a substitute, until the original question is disposed of by action of the Conference."

Dr. Brown submitted the Constitution and Discipline of the Methodist Church, as formed by the Union Convention, held in Cincinnati, in May last. The paper was referred to the Committee on Union.

Rev. J. B. Walker then read a quadrennial report to the General Conference of the operations of a self-constituted Board for the education of young men preparing for the ministry in the M. P. Church.

The paper was presented by Rev. Dr. Flood, and on his motion the report and accompanying papers were referred to the Committee on Ministerial Education.

A memorial was submitted from the Wisconsin Annual Conference, requesting the General Conference to so amend the constitution and discipline of the Methodist Protestant Church, as to make it harmonize with that adopted at the Union Convention at Cincinnati.

A communication from Rev. Mr. Tipton, delegate elect from the Nebraska Conference, regretting his inability to be present at the session was read. The communication also set forth that at the late session of the Nebraska Conference, the basis of Union adopted at Cincinnati was considered and approved, and that any action which might be taken up by the General Conference looking towards union would be fully endorsed.

These papers were referred to the Committee on Union.

Rev. E. K. Squirer, of the Cumberland Presbyterian Church, Pittsburgh, Rev. James Graham, of the Wesleyan Conference, Rev. Mr. Young, of the West Virginia M. P. Conference, and Rev. E. B. Snyder, of Christ M. E. Church, was severally introduced, and invited to honorary seats within the bar of the Conference.

The hour of eleven o'clock having arrived, the order of the day, which was the hearing of the Rev. H. B. Knight, from the Wesleyan connexion, was called up. The Reverend gentleman was introduced to the Conference by the President, and proceeded to address the Conference at some length. He referred to the distinctive features of the several denominations proposing to unite, and the difficulties which are to be encountered in the Wesleyan connection to the accomplishment of the object. He concluded by urging the Conference to consummate the Union on the basis adopted at Cincinnati.

On the conclusion of the gentleman's remarks, the Conference adjourned until two o'clock, with prayer by the Rev. H. B. Knight.

AFTERNOON SESSION.

Conference met and was opened with religious services conducted by Rev. Samuel Young, of the West Virginia Conference.

Rev. L. McGuire, of Wesley Chapel, M. E. Church, Pittsburgh, and Rev. Messrs. Mott, of the Evangelical Association, and Rutledge, of the M. P. Church, were introduced and invited to honorary seats within the bar of the Conference.

Rev. D. Flood, of the Ohio Conference, asked leave of absence for the Committee on College Interests, of which he is chairman.

Rev. J. H. Hamilton, of Muskingum Conference, was opposed to any such requests being granted, preferring that the Conference should adjourn at an early hour, and afford opportunity for all the committees to meet for consultation in preparing their respective reports at as early an hour as possible.

Rev. H. B. Knight, of the Wesleyan Connection, Cleveland, who had made such a happy speech on the subject of the union of Non-Episcopal Methodists, in the forenoon session of the Conference, made a statement in regard to the probable proportion of Wesleyans who would be represented in the organizing Convention of the prospective Methodist Church. He had given the subject considerable attention, and thought that from one-fourth to one-third of the whole number of members would be about the proportion that would be identified with the union movement.

Dr. Flood arose to renew his request for leave of absence for his Committee on College Interests, for the purpose of consulting about having two additional members appointed thereto. On motion, the request was granted.

Rev. J. H. Hamilton read the following paper:

WHEREAS, The discipline makes no provision as to the means of reaching the standing of a minister or member of the Methodist Episcopal Church, who may have taken a certificate of standing from the constituted authorities, and at the same time may have been before or after obtaining such certificate, and before depositing the same with the view of being received into conference or church—been guilty of immoralities such as are condemned by the Word of God, therefore,

Resolved, That the Judiciary Committee be directed to inquire as to the necessity of adding to the law an item, meeting the demand above intimated.

On motion the paper was appropriately referred to the Committee.

Rev. R. Ross, of the Ohio Conference, read the Quadrennial Report of the Western Literary and Publishing Society. The report was of considerable length, but presents many important facts in regard to the publications of the denomination. The weekly journal, the *Western Methodist Protestant*, and the monthly, the *Sunday School Protestant*, are ably edited and promptly published, yet the circulation, owing to lack of efficient effort among the ministers and members of the Church at large, is scarcely sufficient to clear expenses. It is proposed to take measures to extend the circulation of these excellent publications.

Other reports bearing on this subject were asked for by the chairman of the Publication Committee—Mr. Gunkle, laymen, of the Ohio Conference.

Rev. A. H. Bassett, of the Ohio Conference, former publisher and editor of the *Western Methodist Protestant*, to whom, perhaps, more than to any other one man, the paper owes its existence, arose and asked the privilege of explaining, at some proper time during the session of the Conference, the reason of his resignation as publishing agent, to which he had been elected by the last General Conference. The privilege was unanimously granted.

Rev. Dr. Brown requested the Committee on Church Union to remain after adjournment for arranging specific business.

On motion, Revs. J. S. Thrapp, of the Muskingum Conference, and John Cowl, of the Pittsburgh Conference, were elected additional members on the College Committee.

Rev. T. B. Graham, chairman of Committee on Ministerial Education, requested a special meeting immediately after adjournment.

Rev. M. V. B. Evans, chairman of the Committee on Boundaries, made a similar request.

Rev. H. B. Knight, of Cleveland, was announced to preach in the evening at the usual hour.

Adjourned, with prayer by the Rev. James Robison.

Terrible Accident.

The Greenville *Argus* says: Daniel Comstock, of Maysville, son of Cephas Comstock, was instantly killed near Spears' Mill, in West Salem township, on Saturday last. He was returning from Joy's Coal Bank with a load of slack. On starting down the hill below the mill, the horses took fright, and started to run. In attempting to lock the wagon, he was thrown out, the wheel passing over and crushing his skull in a horrible way. He was found almost immediately, but life was extinct. The deceased was one of five brothers who entered the United States service at the commencement of the war. Mr. Comstock won a Lieutenant's commission by his meritorious conduct. He remained in the service until the close of the war. At the time of his death he was about thirty years old, and was a man respected by all who knew him. He leaves a wife and one child to mourn his untimely death.

The Trial of Lennox.

John Lennox, charged with the murder of Robert Morrow, in the Borough of Washington, Pennsylvania, in the fall of 1864, is being tried this week, in Beaver county, Judge Chamberlain presiding.

The facts of the case are already familiar to our readers. The difficulty originated from political differences. Lennox drew a revolver, and pursuing Morrow, shot him dead, as is claimed, at his own door. Frequent efforts have been made to bring the accused to trial, but from some cause or other it has been continued from term to term until many supposed he never would be tried.

The last Legislature granted a change of venue from Washington to Beaver county, the defendant claiming that he could not get a fair trial in Washington county. The counsel employed on both sides embrace the ablest legal talent in the district.

Heavy Robbery—The Beaver County Treasurer's Office Entered and Robbed.

The burglarious artists seem to have a weakness for Treasurers' offices just now. A couple of days ago the Washington county Treasurer's office was broken into and robbed, and yesterday morning the same treatment was accorded to the Treasurer's office at Beaver, Beaver county, probably by the same gang of operators.

The Beaver robbery was effected by first prying open the door to the office and then blowing open the safe. The outside door was pried open by means of a crowbar, such as is used on railroads for removing spikes. This, together with a pick-axe and some railroad chisels, was left on the ground near the scene of the operations. The safe was blown open by means of two holes drilled in it, and filled with powder. One of these holes was drilled in the top and the other near the bottom of the safe. The charge of powder must have been tremendous, as the explosion, as we are informed, was so severe as to almost demolish the safe, and was sufficient to shatter the building to such an extent as to render it unsafe. The noise of the explosion was heard throughout the neighborhood, and occurred at about four o'clock in the morning.

The robbers secured the contents of the safe—some $8,000 in bonds and national currency—and made good their escape. Yesterday afternoon a couple of officers visited this city in the hope of finding some trace of the depredators, but without success. No clue whatever exists of the identity of the thieves.

A Family Out of Tune.

Justice Ammon, of Birmingham, yesterday received an information from Mrs Mary L. Jones, charging her husband, Jerome Jones, with assault and battery and wife desertion, and another information against her step children, Sarah, Catherine and Silas Jones, and a relative named William Frisbee, charging them with surety of the peace and breach of the peace. The parties all reside in McClure township. Mrs. Jones alleges that on the 14th of June last, her husband seized her, struck her on the neck with his fist, then choked her and dragged her down stairs by the hair of the head. Mrs. Jones also alleges that the other defendants urged their father to whip her, crying to him to kill her, and using other like expressions. Mrs. Jones further alleges that her husband has, upon various occasions, threatened to kill her, and has, through fear of him, been compelled to leave his house. The defendants were all arrested, and after a hearing required to enter bail, in the sum of $300 each, for trial at the next term of court.

The Ames M. E. Church.

The congregation of the Ames Methodist Episcopal church are about to erect a new church building, and have purchased for it the site on the corner of Third and Ferry street, where formerly the Third Presbyterian church edifice stood, and which was destroyed by fire some years since. The lot has a fifty foot front on Third street and seventy-two feet depth on Ferry street. It cost the handsome sum of eight thousand five hundred dollars.

The plans and specifications have been drawn by Messrs. Welsh and Ehmen, carpenters, Centre Avenue, Pittsburgh, to whom the contract of building has been awarded for the sum of seven thousand dollars. The work will be immediately commenced, and will be rapidly pushed forward.

Theft by a Soldier.

Yesterday, Major Thomas Fince, recruiting officer for the United States army, in this city, made information before Mayor McCarthy, charging Frank Kerr, an enlisted man, with the larceny of three pairs of Government trowsers valued at fourteen dollars. The accused was arrested and had a hearing yesterday afternoon. At the hearing it appeared that Kerr, who has but recently enlisted in the regular army, had stolen the articles mentioned from the recruiting office, on Fifth street, and sold them to a second hand clothing dealer. In default of $300 bail the prisoner was committed for trial. He was a soldier in the volunteer army, and did not win a very good reputation. He is also supposed to have been connected with a clothing robbery in the Fifth ward some time ago.

A Wanton and Mysterious Attack.

A gentleman named Blair, who does business on Liberty street, in this city, but whose family reside at Salem, Ohio, started, a night or two ago for the Union Depot, to take the train home. As he was passing the Elevator he was suddenly struck a violent blow on the head by some person unknown and fell senseless to the ground, where he lay unconscious for a considerable period. When he recovered his senses he was alone and could find no trace of his unknown assailant. The object of the sudden attack is a profound mystery. It could scarcely have been robbery, as Mr. Blair's valise was by his side when he became conscious, and his pockets were intact.

Appointment.—The Merchant's Union Express Company—having their arrangements nearly completed for a vigorous prosecution of the purposes of their organization, have given the business men of Pittsburgh an earnest of a determination to please them and make the company popular, and at the same time secure a thorough management and care of the company's, interests in the appointment of Wm. Little, Esq., as Agent for the city of Pittsburgh. Mr. L. was formerly Mayor of the city, and more recently United States Collector of Internal Revenue. He is native born among us, and has been cotemporary of, well-known and justly esteemed by all our men of business—as a high toned christian gentleman, a prompt, energetic and urbane man of business.

Time Out.—Weigold, the man who was convicted in July last, of the felonious assault upon Miller—cutting him almost fatally, at a pic-nic on Troy Hill, last summer, and sentenced to undergo an imprisonment of four months in the county jail, and pay a considerable fine, was released from durance yesterday, his term of imprisonment having expired. He also released himself from the necessity of paying his fine, by taking the benefit of the insolvent act. He is under bail, however, for the payment of the costs of the case, and the expenses of the medical attendance upon his victim.

Narrow Escape.—Two lads employed at the Eagle Tobacco Manufactory on First street, yesterday evening, undertook to let themselves down from the third story to the lower floor, by means of the hoisting machine. When their weight was brought to bear on the rope, it parted from the windlass and precipitated them to the floor below, a distance of about thirty-five feet. Their descent was more rapid than they calculated upon, but with the exceptions of a few slight bruises, they escaped without any serious injury.

Hearing To-day.—A hearing will be given to-day, by the Mayor, in the case of Alfred Wilson and John Grogan, charged with stealing the two diamond rings from Johnson & Scott, on Tuesday evening. Another information for larceny has been lodged against Grogan, by officer Glenn, who, it will be remembered, captured the boy in the act of picking a gentleman's pocket.

Sizeable Game.—Messrs. Captain Samuel Patterson and H. A. Wannamaker, whilst gunning a few days since, near Murraysville, shot an owl, measuring eight feet five inches from the tip of one wing to that of the other, and a squirrel weighing six pounds and two ounces.

Released.—Wm. Dickson, whose arrest and commitment to the county jail as a deserter from the Newport Barracks, Ky., we noticed several days ago, has been released from custody, there being no ground for holding him.

Upwards of 250,000 families are now using the Wheeler & Wilson machines, and they have never failed yet to give satisfaction. Sumner & Co., the Western agents, at 29 Fifth street, have a fine stock on hand, from which you can make your selection. Every machine they sell is warranted.

Deafness and Blindness Cured.—Dr. Aborn, at the Merchants' Hotel, refers to respectable parties, whom he has operated upon and cured.

The Pittsburgh Gazette

FRIDAY, NOVEMBER 16, 1866.

TO YEARLY ADVERTISERS.

Owing to the large amount of advertising patronage with which we are favored, and for which we are duly thankful, and the increase of our circulation, altogether beyond our present means to supply as promptly as we ought, we find it generally inconvenient, and sometimes quite impossible, to insert changes for yearly advertisers, unless left at our counting-room before seven o'clock in the evening.

TO SUBSCRIBERS.

For some weeks past we have found great difficulty in supplying the demands of agents outside the city for our paper. We are gratified to state that our new press arrived yesterday. We have fitted up a new room for it, and in a few days shall have it in operation. From that time onward we hope to supply promptly, and at as early an hour as needful, all orders for the GAZETTE.

POWER OF CUSTOM.

In speaking, the other day, of the Central Pacific Railroad of California, we stated the fact that ten thousand Chinamen were employed in its construction, and that additional thousands were contracted for, and would be on the work shortly. The condition of these laborers too closely approximates that of slavery to be at all congenial to our ideas and sentiments.

MR. RAPHAEL SEMMES, late commander of the Anglo-Rebel privateer Alabama, has been looking at this employment of Coolies, and takes naturally to it as a substitute for that system which was dear to the Southern people, but which the plow-share of the war effectually overturned. He has promulgated some of his views through the columns of the Mobile *Gazette*, thus:

> The Coolie was uniformly preferred as a laborer, either to the European or the African, and we heard no social or moral objections made to him, such as the Yankees in California make, while they continue to import him by the thousand.
>
> In tropical climates, and our cotton fields are almost tropical, the European was found to be unavailable to any useful extent, and the negro had withdrawn almost entirely from the field of regular and systematic industry, and betaken himself to his bamboo hut and taro patch.
>
> The Island of Trinidad, which, before the abolition of slavery, had produced immense sugar crops, ceased almost entirely to export the article until the happy idea of Coolie labor was thought of. She has now very nearly recovered her original prosperity.

Such reflections may seem profound to a man, all of whose habits and associations have conspired to superinduce them, but to men trained under different influences they appear altogether superficial. If the white man is so constituted by nature that he cannot perform the ordinary work of life, in a particular climate, it would seem not to require much penetration to make the discovery that he was not intended for that meridian, and has no right to insist upon staying there; much less to seize upon other men, so formed as to thrive in that locality, and compel them to do gratuitously the labor he ought to do himself. Navigators make no report of finding alligators at the North pole, or black bears under the tropics. Animals, governed simply by instinct, seem to keep their places in the economy of the world better than white men, who boast of possessing the largest amount of that superlative quality called reason.

It is quite possible that a lusty white man, with a raw-hide, can get more work out of a given number of black men than they would care to perform for wages. It is not difficult to see that the same operation might be executed, if the laws of the land and the usages of society allowed, on not a few white men, who now manage to get along without doing anything that is either useful or ornamental. It is hardly conceivable the Admiral, as the case stands, would like the job of thus getting the larger possible amount of work out of the first score of white loafers that the police of any city, North or South, could pick up.

But the Admiral is substantially contradicted on a very material point, by the Governor of Georgia, whose testimony we published a day or two ago. He states that the chief difficulty experienced is not in the indisposition of the blacks to steady industry, but in that Providence which has withheld a bountiful season. We do not exactly see how the blacks can be held responsible for early or latter frosts, for inundations and parching suns, except by that Southern logic which make him culpable for not wearing a bright complexion.

Moreover, the Admiral is tolerably certain immigrants from Europe will proceed west instead of turning south. In this he is wiser than the Richmond *Enquirer*. That astute journal recently expressed with becoming gravity, the opinion that men, women and children coming over here from Ireland, Germany, and other countries, were determined as to their ultimate destination by the radical journals of the north. The old leven of abolition malice was at the bottom of it. This the Admiral does not believe. He has given a good many days to cosmic studies, especially to all those branches essential to make a skillful navigator. He knows a good deal about isothermal lines, and believes that masses of people starting out in pursuit of fortune will commonly follow the lines in which they were reared. The census tables embody not a little demonstration on that subject. Nor is the only instance in which scientific knowlege is an effectual cure for pro-slavery bigotry and dogmatism. In virtue of this natural law the Admiral maintains that there must always be a lack of white men down south, and he earnestly advocates encouraging the importation of Coolies. He says:

> "Our advice to planters is, to try the Coolie. Experiments on a few plantations will suffice, and if you do not like him, you can easily get rid of him. Labor is like other salable commodity, and there is no danger of its rushing into countries, in any considerable quantities, where it is not wanted. If, after the first experiments, you do not want the Coolie, he will not come to you, and if you do want him, you will not be afraid of him. There is no danger of a Pagan inundation, such as some of our cotemporaries seem to fear. The very objections that they make to the Coolie that he is a Pagan, and insists upon being finally carried back to his own land, alive or dead, refutes their arguments based on the fear of his miscibility with our people. It is, we believe, a fact that the Chinese do not willingly settle in other countries. The Coolies thus far imported into the British Colonies and into California, have been mostly young men without families, or, if they have families, they leave them behind them. They are, in fact, apprenticed or bound men, for a term of years, who expect to return at the expiration of their contract."

He explains that it will be necessary and proper to extend the protection of the "Civil Rights Bill" to these people. That is certainly a point President JOHNSON ought to look into. He tried, like a midwife, to strangle that bill at its birth, alleging it was a monster that had no right to live. Yet even the most noted pirate of modern times is constrained to confess it has benevolent uses. Alas! for the country when its Chief Magistrate has duller moral perceptions than a pirate who has scuttled many a peaceful merchantman.

We like all reasonable schemes for getting more work done in the Southern States. We should take it as a most hopeful sign if the members of the dominant race would expend less thought upon getting other people to labor for them, and manifest a greater zeal in toiling for themselves. Every body except common loafers give their best energies to work in the Northern and Western States, and that explains all the mystery there in the unprecedented prosperity of those sections. The secret is an open one. Let the South profit by it.

MAIL GLEANINGS.

A RAILROAD PASS has been disposed of in the New York Courts in the case of George Lockwood vs. the New York Central Railroad Company. This was an action to recover damages for a personal injury sustained by the plaintiff. The plaintiff was a drover, and was riding on one of the defendants' cattle trains, having on board a quantity of cattle belonging to him. He had one of the drovers' passes, as they are called, by virtue of which drovers who have charge of cattle are allowed to ride free on the road. He had to visit his cattle while the train was in motion, and as he could get no lantern he started to go in the dark, and fell into a place where the railroad on a high embankment passed over a road, the road bed not being planked over, and was seriously and permanently injured by the fall.

The defendants claimed that the effect of the pass was to free them from responsibility, but in any event they were free from negligence in the matter.

The judge charged that the effect of the pass would not be to free them from responsibility from the consequences of negligence, if there was any on their part, which he left to them as a question of fact.

The jury found a verdict for the plaintiff of $25,000.

THE DAILY EXPENSES of a New York millionare were illustrated in the Supreme Court of New York on Tuesday in the case of Anna L. Murphy vs. Andrew Gross. The suit is brought by the plaintiff for the purpose of restraining the defendant in disposing of certain property in New York city, during the pendency of a divorce suit between the plaintiff and her husband Daniel T. Murphy. The husband is a millionare, and it was shown in affidavits that they were married in August, 1856, and have now seven children living with their mother in New York; that her average daily expenses, aside from the furnished house near Lexington avenue, in which they live, are $100. At that rate of daily expenditure Mrs. Murphy, when left to her own devices, will need all the injunctions she can get against Mr. Gross or any other man.

A SCAN. MAG. has devoloped itself in Chicago. The names of the parties are suppressed. On Monday night the proprietor of a circus left his wife at the Metropolitan hotel, promising to be back early. The wife waited until it was quite early and then started to hunt him. She went to the Merchants' hotel, where stopped an *equestrienne* in her husband's troupe. There she got the services of a policeman, and together they were shown to the room of the *equestrienne*. They were refused admittance, and on climbing up to look over the door, the policeman discovered the delinquent husband occupying the room with its proprietress. A grand scene ensued, and a divorce suit will be the result. The deserted wife is described as a gay, beautiful and fascinating woman. Her husband's friends think she did not act fairly in tracking her lord so unexpectedly.

FIVE HUMAN BODIES were found in Chicago during Sunday and Monday last. John Shear was instantly killed on the Pittsburgh and Fort Wayne Railroad by being struck by the locomotive on Monday; W. C. Summers was found dead on Madison street on Sunday morning; an unknown man was found dead in a gutter and suspicions of violence are entertained; the body of an unknown man was found on Monday in the Chicago river, and a paper box was discovered on Monday on the sidewalk of Van Buren street, and on opening the box a partially developed human infant was found.

ON TUESDAY a formal written article of agreement between parties about to marry was left for record in the Recorder's office, New York. It was between parties who reside over the Rhine, and contained a provision that, whereas, Katrine was the proprietress of a female employment business; she, in consideration of one dollar, and other valuable considerations, paid to Franz, was to remain the sole possessor of the furniture and of the business. It was further stipulated that the future husband should maintain the future household.

A HUSBAND AND FOUR CHILDREN are inquired for by a woman in St. Louis. In September last, Alexander Leiber, a German, started with his wife and four children to go in a wagon from Shelbyville, Mo., to Fort Wayne, Ind. They arrived at Quincy, Ill., and in the morning the father took the four children out to get them shoes, and since then neither father nor children have been heard from. It is supposed that Leiber eloped with a female acquaintance from Quincy. Margaret, the wife, is distractedly looking for him.

ADDISON PARKISON, of Jasper county, Indiana, has just been acquitted of a charge of murder. In May last Parkison's cousin, Guthridge, seduced the young daughter of the defendant. Parkison learned the fact and shot the seducer dead. The jury acquitted him and justified the killing of the seducer.

THE N. Y. CENTRAL R. R., according to the Rochester *Democrat*, is about to involve itself in great trouble, by an attempt to deprive the Merchants Union Express Company of the privilege of running cars over the road, and conferring the right exclusively to the American Express Company.

THE CINCINNATI PAPERS have discovered that their butchers kill their hogs when they have been attacked by sickness, and sell the pork. The papers are making a fuss about it.

AT A MURDER TRIAL in Philadelphia last week, the jury had to be discharged because one of the jurors was suddenly taken with a violent attack of delirium tremens.

THE CHOLERA has disappeared again from Cincinnati; not a case occurring Tuesday.

JAMES GORDON BENNETT is supporting Horace Greely for the United States Senate.

—In the New York Supreme Court, on Thursday, a case was concluded, the jury retired, and some time after the foreman reported that eleven of them had agreed on a verdict for the plaintiff. The twelfth juror they could not understand, and he could not understand them. When questioned by the Court he seemed to be dumb. Further investigation revealed the fact that he was a Russian, and did not understand the first word of the English language. The Judge then tried to make it known to him that he was excused from any further jury duty. He could not comprehend, and the problem of how to get rid of him was finally solved by a Sheriff's deputy, who walked into the box and gently led him out.

—A house was rented in Minnesota "till cold weather," and during the late cold snap the occupier received notice to quit. He refused; went to court and the Court decided that cold weather does not come till the 1st of December.

THE LAWS OF HEALTH.—It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation, which depends for its enforcement upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in this country, who has not seen the testimony in favor of HOSTETTER'S STOMACH BITTERS, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce, and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable anti-bilious medicine, a promoter of appetite, a genial and harmless stimulant, a good acclimating medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every rational person who, either by reason of inherent debility or in consequence of exposure to unwholesome influences, is in peril of the greatest of all temporal blessings, HEALTH, the importance of using the BITTERS as a defensive medicine. Dyspeptics who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the bilious and nervous will find nothing in the whole range of official and proprietary medicines which will afford them the same relief.

NOTICE TO CONSUMERS OF WATER.—The repairs now in progress at the Water Works render it imperative that great economy should be observed in the use of water, the one engine now running being taxed to its utmost capacity. All unnecessary waste of water should be avoided, such as sprinkling streets, washing pavements, drenching clothes in tubs &c. in hydrants, &c. Unless there is proper attention paid to these requirements the city will not have sufficient water for fire, culinary and other necessary purposes. A non-observance of this caution may deprive the offender of a supply of water, as well as entail a heavy fine.

It is hoped that in the course of three weeks or a month, at farthest, the Superintendent will be enabled to remove these restrictions.

(ADDITIONAL LOCAL NEWS ON FIRST PAGE.)

United States Senator.

EDITORS GAZETTE:—The suggestions of "Allegheny," in the GAZETTE of the 13th inst., in regard to the claims of Western Pennsylvania to the Senatorship upon the retirement of Mr. Cowan, are exceedingly appropriate, and should be well considered, before any decided action is taken by Western Representatives in the Legislature on this important subject.

Certainly, upon every principle of equity or common fairness, well as proper regard for the respective interests of the two sections, the West is entitled to the choice of Mr. Cowan's successor.

If anything is needed to establish our rights in this connection, it can be found in the fact that the whole majority in the late struggle for the ascendancy of the Union Republican party in this State was obtained west of the mountains.

Now, unless there should be some distinguished personage, who by reason of great public services, transcendent ability, consummate statesmanship, and incorruptible virtue, should be entitled to a postponement of all local considerations in his favor, there is manifestly no propriety in a departure from the line of safe precedents in selecting the Republican candidate for the United States Senate.

Of the prominent names amongst Eastern men who are proposed for this exalted position, that of Thaddeus Stevens doubtless fulfils the conditions needed to make an exception to the rule; but his great age and feeble health are serious objections in his case.

Have we then a Western man, who is at least the peer of either of the other Eastern aspirants for Senatorial honors? If we have, why should he be thrust aside for their advantage, thus giving the Eastern part of the State our whole representation in the Senate of the United States.

It is no disparagement to the other gentlemen, whose claims are being urged by their friends respectively, to say, that the Hon. Thomas Williams, of Allegheny, will compare favorably with the best of them in all that constitutes fitness for the place. His power as a great constitutional lawyer, and the eloquence with which his views have been enforced in Congress, are subjects of national repute, and in this crisis in our national affairs, when questions of vast importance are to be determined, Mr. Williams in the Senate of the United States would be the "right man in the right place."

Western Pennsylvania, therefore, and Allegheny county especially, should indicate a preference in his favor so distinctly, that our representatives in the Legislature will not feel at liberty to disregard it. If, as Allegheny intimates, there is a clique, a combination in this county, that has undertaken the adjustment of this question, in the interest of either of the eastern candidates, it is a gross usurpation of authority, and an assumption of responsibility, no where confided to them, and should be signally rebuked.

Our representatives in the Legislature should ignore all such dictation, and be guided only by their sense of what is due to the great manufacturing districts represented by them, and by their perfect knowledge of the fact, that we are under no necessity to look beyond our own country for the talent and ability which belong to a Senator of the United States. 23D DISTRICT.

PITTSBURGH, November 15, 1866.

Meeting of the East Birmingham Councils.

A regular meeting of the East Birmingham Councils was held on Tuesday evening last.

Members present: Messrs. Schultz, Erny, Jones, Atkinson, Beck and Burgess Chess.

The minutes of the previous meeting were read and approved.

Mr. Patrick Hughes, of Baldwin township, was exonerated from personal tax, not being a resident of the borough.

On motion of Mr. Schultz, a warrant was ordered to be drawn in favor of Kelloy, Williams & Co., for one thousand dollars, on account of paving, and also a warrant in favor of the same party, for five hundred dollars, for paving of crossings.

Mr. S. J. Thomas, Street Commissioner, presented his monthly pay roll, which amounted to one hundred and seventy-six dollars and seventy-five cents.

On motion of Mr. Schultz a warrant was ordered to be drawn for the amount of the bill.

Warrants were also ordered to be drawn as follows:

Gotleib Herr, for stone	$ 35 00
Chess, Smythe & Co., for work	46 80
Grading Meadow street	50 50
Wm. McKnight, paving	23 43
James Atkinson, curbstones	400 00
P. R. Howley, grading	500 00
G. W. Fennell, services	15 00

On motion of Mr. Jones, the Street Commissioner was authorized to notify the owners of lots on any or all of the paved streets, to have sidewalks paved, and not less than six feet and a half in width, the same to be done immediately.

The Street Regulator reported that the amount of excavation on Joseph street, between Carson and the river, was 2,160 cubic yards.

On motion of Mr. Schultz, it was resolved that the sum of fifty cents be paid to Mr. P. R. Howley per cubic yard for the grading of the streets.

A petition from citizens on Joseph street was presented by Mr. Jones, asking that gas lamps be erected on said street, between Carson and Sidney streets, one on the corner of Sidney, one on the corner of Wharton, and one on Clifton street. The request of the petitioners was granted.

The Treasurer's monthly report was received and accepted.

On motion of Mr. Erny, the Street Commissioner was instructed to have cinders placed on the sidewalks of streets running between Meadow and Joseph streets, above Carson street.

The Burgess was instructed to procure a written opinion on the interpretation of an act of Assembly relative to paving streets, &c.

The Street Commissioner was instructed to have the sidewalk on Sarah street, near Meadow, graded as soon as possible.

Councils then adjourned.

The Only One.

Probably the only person now alive, who witnessed the surrender of Cornwallis is a genuine Guinea negro, called Tom, now living at Hamilton, Ohio. He was brought to this country in a slaver some time near the close of the last century, and says he "'spects he must be about five hundred year old." His real age is probably about one hundred.

The chief interest attaching to Tom is the fact that he was present at the historical event above named, where he saw General Washington, of whom his recollection is quite distinct and his admiration intense. He is duly sensible that there are few, if, indeed, a single person now surviving who witnessed that scene, and it confers upon him no small sense of importance. He was owned at that time by a planter living in the vicinity of Yorktown, whither he had been brought soon after landing from the slaver at some point on the Carolina coast. As might be expected from the nature and character of the African the imposing display attendant upon the surrender made a deep impression upon his memory, and he relates with considerable minuteness the details of the affair. The red coats of the British particularly struck his fancy, and he describes with much gusto and satisfaction the ceremony of "grounding arms," giving an illustration of the ceremony with his iron pointed walking staff. Washington passed near where Tom was standing on the occasion, mounted, he says, on a white horse, and looking "mighty grand." From his earnestness and minuteness of description, it is clear Tom is a truthful witness, and, perhaps the only one left in the land. He is still stout, considering his advanced years, and bids fair to live out another decade of winters. In pleasant weather he passes much of his time sunning himself in front of a saloon on High street, whose friendly proprietor provides him with a comfortable arm chair. He has a highly developed taste for whisky.

A Valuable Gift.—Allegheny College has received four boxes of casts of ancient sculptures as a gift from the Royal Museum of Berlin. They contain a full length copy of the celebrated "Colonna Dian" in the Museum at Berlin, a bust of Alexander the Great, one of the philosopher Zeno, one of the infant Bacchus, the beautiful memorial medal to Wackenrober, a monument from the rock temples of India, one Assyrian bas-relief, a number of bas-reliefs, and several choice specimens of Greek and Roman tombstone ornaments; another box, also a donation from the Royal Museum of Berlin, and containing, among other works of art, some genuine ancient Greek vases, and some old German antiquities has been forwarded.

What a Yarn!—The Erie *Dispatch* is responsible for the following story: A citizen of Erie went to the dock the other day with his fishing tackle, and while lazily waiting for a bite he took out his watch, whereupon some monster of the deep tugged at the bait with such violence as to jerk the watch out of the fisherman's hand and finally snap the line. Soon afterwards the unlucky angler bought an eight-pound bass of a boatman who had just hauled him out, and upon cutting him open the buyer found not only his lost tackle, but his lost watch, which had not yet stopped ticking.

Another Kidnapped Child in Cincinnati.—A child which was kidnapped in England, two years ago, at the instance of a relative, who was to receive considerable property in case of its death, has just been discovered in Cincinnati, Ohio. It was first taken to Switzerland by a servant, during the temporary absence of its mother, and thence to the servant's home. Here, by reason of the advertisements, suspicion was directed toward him, and he fled to America, but detectives followed him, and at last discovered the child.

Hearing.—Yesterday morning Mayor McCarthy gave a hearing in the case of the negroes, Thompson and Cady, charged with the larceny of a coat, pair of gloves, and pocket handkerchief, the property of E. M. Burghan, from Coursin's tavern, on Water street, which resulted in the committal of Thompson for trial, in default of bail, and the discharge of Cady. Thompson admitted to having sold the coat, but averred that Cady stole it. There was no such evidence before the Mayor, hence Cady was discharged.

Peat.—The Titusville *Herald* says: Peat is said to exist in this county in inexhaustible quantities. It is found to abound in Conneaut marsh and Pymatuning swamp. In many places it is said the deposit is twenty or thirty feet deep. The land has hitherto been considered worthless. Peat is cheaper than coal or wood, and as there are no coal deposits hereabouts, and wood for fuel is becoming scarce, these peat bogs may yet become a mine of wealth to their owners.

The Penny Robbery.—Yesterday morning Noah Jackson, employed on the steam tug Whale, was before Mayor M'Carthy, charged with stealing two hundred pennies from Mrs. Little, proprietress of a boarding-house, No. 1 Water street, was discharged for want of sufficient evidence.

Sudden Death.—Mrs. Cecilia Pigman, a resident of Wheeling, W. Va., while on a steamboat, on her way to this city, was seized with hæmorrhage of the lungs and died in fifteen minutes.

Important Decision.

NEW YORK, November 15.—Judge Barnard, in the general term of the Supreme Court, decided that the late act of the Legislature, taxing broker's sales is unconstitutional and void. He bases his decision mainly upon the ground that the Constitution of the United States gives to Congress the power to collect taxes on imports and exports, and denies such power to the States.

NEW YORK, Nov. 15.—The *Herald* has a special from the Greenwich Observatory, England, detailing showers of meteors seen on the morning of the 14th, described to be of great beauty and brilliancy. Five thousand were counted in one hour, and nearly twelve thousand in all.

There is a fine Young Orchard, comprising about 12 acres, stocked with the best varieties of fruit trees. It is all underlaid with coal. The land is in a high state of cultivation, well watered, fences good, and would suit admirably for dairy or gardening purposes.

Also, 17½ acres adjoining the above, with a good Frame House, Carriage House, good Spring House and other out-buildings; with a good Orchard in fine bearing condition. This piece is also all underlaid with coal.

Also, 12 acres adjoining the above, unimproved, for sale low. This piece is also all underlaid with coal.

The above three pieces of property lie between the Little Saw Mill Run and Steubenville Railroads, and the coal can be reached easily from either road. The coal alone is worth all that is asked for the entire property.

Also Farm of 173 acres, situate in St. Clair township, Westmoreland county, Pa., immediately on the line of the Penna. Railroad. The improvements are a two-story Frame House with five rooms and good cellar, a Frame Bank Barn, 40x60 feet, and other out-buildings. There is on the place a good Young Apple Orchard; 130 acres cleared, balance in good timber; fencing generally good, well watered; underlaid with coal and limestone; convenient to churches, mills, schools and blacksmith shops, together with the personal property such as stock, implements, grain in the ground, &c. Posession given immediately.

Also, Farm of 53 acres, situated in Chartiers township, Allegheny county, Pa., about 3½ miles from the city, near the line of the Steubenville R. R., and within one-half mile of a station; 30 acres of the best of creek bottom land, and in a high state of cultivation; 22 acres of wood land and pasture. The fencing is generally good. JOHN D. BAILEY,

Stock and Real Estate Broker.

FOR SALE—400 Acres of Coal Land, lying immediately upon the Ohio River, 20 miles below Gallipolis, and 185 miles above Cincinnati. On the above tract is a four foot vein of Coal, which, for general purposes, is not surpassed. It is entirely different from the Southern Ohio Coal; contains but little sulphur, forges and cokes well, and for making steam cannot be excelled. The location being about midway from Pomeroy and Hanging Rock, must make it valuable for coaling boats. There is a water front of ¾ of a mile, with a good landing at all stages of the river. An entrance has been run in the hill about 300 feet, track finished to river, together with the necessary fixtures for mining and delivering coal afloat. On said tract is first-class double Portable Circular Saw Mill together with a Portable Grist Mill, all in good running order, and plenty of the very best oak, ash and poplar timber. Would sell one-half interest if desired, to a party with experience and capital for working same. JOHN D. BAILEY,

Stock and Real Estate Broker,
oc19 No. 102 Fourth street.

FOR SALE—231 acres Coal, including 51 acres Surface, on the East side of the Ohio River, three miles above Wheeling, with right of way to river. The close proximity to a good market at Wheeling, together with the fact that the coal crops out high enough in the hill to be used profitably for rolling mill purposes, makes this a good investment. PURE CALIFORNIA WINES.

GURNER & CO.,

No. 80 Cedar St., New York,

Offer for sale these valuable Wines, which are gaining public favor with astonishing rapidity, and whose unprecedented and unrivalled popularity is not without merit. They have only to be fairly tested to give them the preference over all others. As a purifier of blood they excel all other Wines, and the numerous certificates which have voluntarily been tendered from the most eminent physicians, as well as gentlemen in every position in life, are proof conclusive that these Wines are useful in all cases for which they are recommended.

The following brands are now offered by us. They comprise all the varieties now grown in the State suitable for sale:

WHITE, or HOCK WINE—Of a light straw color, very delicate and fine flavored.

CLARET—A superior wine for table use.

ANGELICA—A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine wheys and jellies. It is a fine dessert wine, and well adapted for Communion purposes.

MUSCATEL—A light colored, highly aromatic wine. Very similar to the celebrated Tokay.

PORT—Deep red color, fine flavor, and in many respects similar to the old wines of Lisbon.

GRAPE BRANDY—The pure distillation of our wines.

WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhea.

This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the North during the last four years, and wherever introduced it has proved a welcome addition to the invalid table, the family circle, and the bachelor's sideboard.

Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo; gentlemen who "don't feel very well" just before breakfast or dinner, whose stomachs are out of order and whose systems are generally deranged; mothers weaning children and suffering from general debility; children of sickly nature and sour, dyspeptic constitutions; travelers who have occasion to change their water; and all who live in malarious districts and are subject to miasmatic influences, will find it one of the most valuable invigorators that can be taken.

It was used very extensively in 1861, with such general satisfaction that in offering it to the public now we deem it unnecessary to publish any of the many certificates that we have received, testifying in the very strongest terms to its favor. All that we can say is to guarantee that we will pledge ourselves to furnish an article PURE AND UNADULTERATED.

It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl in particular, with pains in her head, loss of appetite and daily wasting consumption, on whom all medical skill has been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly increased and she is now well.

FINANCE AND TRADE.

THURSDAY, November 15, 1866.

New York dispatches, received by Robinson, McClean & Co., show a marked decline in gold, weakness in Governments, and a heavy feeling in the entire Railway list. We report as follows: Gold, 144¼; U. S. 1881 Bonds, 114½; Five-Twenties, 1862, 110; do 1865, 107⅝; do new issue, 109⅜; Ten-Forties, 100⅝; Seven-Thirties, 1st series, 107⅜; 2d and 3d issue, 105⅜. Michigan Southern Railroad, 84¾,—decline 1¾; Cleveland and Pittsburgh, 88—decline ⅞; Pittsburgh, Fort Wayne and Chicago, 106⅜, 1¼ off; Erie 78⅜—decline 2¾; Western Union Telegraph Co., 50¼—decline ⅛; Chicago and Rock Island, 106⅜; Chicago and North Western, 52½, decline one per cent.

The difference bid in New York to-day on exchange of old Five-Twenties for '65s is 2¾. Robinson, McClean & Co., exchanged large amounts to-day at two per cent here. The market is so changeable in New York, and the tendency so unmistakeably to smaller margins, that one quarter per cent barely covers ⅛ commission and express charges.

Our local market improved slightly yesterday, and holds steady to-day on Bank shares. We report sales of M. & M. Bank at 65¼@65½; Fourth National at 100; Iron City Bank 82 bid; Exchange 63 bid; Citizens 60 bid; Peoples' National 106; Bank of Commerce 110 asked. Some inquiry for Insurance stocks, but we can give no quotations to-day. Oils continue depressed. Columbia offered at 16¼ without bringing out buyers. Marine and Triumph have lost the activity noticed a few days since. The stock, however, does not press upon the market.

Robinson, McClean & Co. make the following quotations for Land Warrants:

40's warrant 1812		$40	Buying
80's "	"	90	"
120's "	"	127	"
160's "	"	150	"
160's not warranded 1812		145	"
Agricultural College Scrip 160's		80	"

—The government now holds in possession $87,829,319 26 in gold, $20,851,560 being represented by gold certificates. On the first inst. the public debt statement showed coin amounting to $99,413,018 55 on hand, and notwithstanding that payments of interest in coin amounting to nearly $24,000,000 have been made since that date, the amount now in the Treasury is but $11,583,699 less.

—The New York papers of Monday evening mention a steady effort by the shorts to put gold down to 140 on that day, the basis of operations being the city Bank statement, which again shows a decline of 3¼ millions in legal tenders. These notes are now, therefore at a lower point than for some time. But there is a large supply of money at New York and capitalists prefer call loans to paper, which operates against high rates of interest. It is useless to talk of any stringency in money while the banks have $25,000,000 of legal tenders lying in the Sub-Treasury without interest.

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, November 15, 1866.

CATTLE.

The market for cattle was a remarkably hard one this week—the hardest of the season, if not since the Central yards have been established. The receipts were about up to the usual average, and with exceedingly unfavorable reports from the east, and very timid buyers, holders were obliged to submit to material concessions, or else ship further east on their own account, and but few of them seemed disposed to accept the latter alternative, preferring rather to sell here. There was a very fair attendance of buyers, but the great majority of them having sustained pretty heavy losses in the eastern markets, they were unwilling to buy here unless concessions were made, and they all apparently got all the cattle they wanted at their own prices. One operator who buys largely here and ships east, it is said, lost $10,000 this week in New York, and we are cognizant of an "Allegheny drover" having lost $1000 on a small drove of cattle in Philadelphia. In fact, nearly all those who shipped stock from here to New York and Philadelphia last week "got their fingers burned" pretty badly, and, as a matter of course, these men will not buy very largely now unless they can do so at a material reduction. Prime to extra fat cattle, suitable for retailing in the eastern markets, sold this week at from 7 to 7½—one drove of choice bringing 7¾. Good to medium cattle may be quoted at 6 to 6½, and inferior to common at 4½ to 5.

SWINE.

There was a fair business done in Hogs this week, but, compared with last week, prices have declined fully one cent per pound. Last week, good to prime heavy averages sold at from 8 to 8¼, while this week, the bulk of the sales were at from 7 to 7½—one or two bunches of extra brought 7¾, to go to Reading, Penna. It may seem strange, yet it is nevertheless true, that Hogs are at the present time worth nearly as much in Chicago and Cincinnati as they are here, or even in New York.

SHEEP.

The receipts of Sheep were exceedingly light this week, comprising but a few car loads all told, and with a fair demand and but very few in market, prices may be quoted from ½ to ¾ of a cent per pound higher than last week. We now quote at 4 to 5 cents for common to good—one drove of prime fat sheep brought a fraction over 5½.

Chicago Cattle Market.

CHICAGO, November 14.—The fresh receipts of Beef Cattle to-day at the Union Stock Yards are 1851 head. Entered sales, 638 head, at prices ranging from $3,25@4,12½ for common to fair cows, and from $5@5,60 for fat cows and steers. The general market is dull and weak with a downward tendency. The unfavorable reports from Albany and other points east caused shippers to hold off as they have lost considerably lately on shipments and cannot now pay the prices asked. There are very few good lots in the yard, and these will doubtless be shipped east on account as they refuse the prices offered.

Light receipts may have a tendency to check any further reduction in prices, but a liberal supply will doubtless cause another decline.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, November 15, 1866.

The inclement condition of the weather had a tendency to retard business in the produce markets to-day, which at best, has been rather light all week. The advices from Chicago are of a character to impart a little more firmness to Flour and Grain, but so far as other articles are concerned, there are no changes worthy of special notice.

GROCERIES—The market is steady, with a moderate jobbing demand, but prices are without change. Rio Coffee is quoted at 26½ for Roasting; 27½ for good, 28½ to 29 for prime, and 30 for choice. Cuba Sugar, 12¾ to 13½; Porto Rico, 13 to 14½; Clarified, 14½ to 15; English Island, 15½; Crushed, 17; "A" Coffee, 16; "B," 15¼, Extra "C", 15¼; "C," 15. Porto Rico Molasses, 87½—choice Rice, 10¼ to 10½.

GRAIN—There is not enough doing in Wheat to establish quotations. Oats dull but unchanged; sale of 1 car at 52, and 600 bushs, on wharf, at 53. New Corn is very dull, being offered freely at 70, without finding buyers—no sales of old. Barley is dull and drooping; sale of 1 car prime Spring at $1,10—sold to a "lager beer" man. Brewers, generally, are only offering $1 to $1,05. Rye may be quoted at $1,20 to $1,25.

FLOUR—Is steady with a fair local demand and unchanged at $12½ to $12¾ for good to choice Spring Wheat brands, and $13½ to $14 for Winter Wheat. Rye Flour is quoted at $8¼ to $8½, and Buckwheat is dull at $4 to $4½ per cwt.

SEEDS—Flaxseed is in good demand, and we can report sales at $3 to $3,10. Timothy seed is selling lots at $3—may be quoted at $2½, in first hands. Clover Seed is held at $9—an advance.

APPLES—In good supply and dull but unchanged—regular sales in store at $2 to $3, as to quality.

POTATOES—Prime Jersey Sweets are scarce, and a shade higher, being quoted at $5,25 to $5,50 per bbl. Peach Blows, prime, at $2,50 per bbl.

BUTTER—Is in good supply and dull, with a drooping tendency. We now quote Roll at 28 to 30—choice, 31 to 32.

EGGS—Scarce and in demand, and fresh packed may be quoted at 32 to 33.

CRANBERRIES—With a light supply and steady demand, the market may be quoted firm at $15 per bbl for common, and $20 for cultivated.

CHEESE—Continues dull, with a supply considerably in excess of the demand, but prices remain unchanged.

HAY—Prime baled Hay is in steady demand, and sells readily at $24 to $25 per ton.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, November 15, 1866.

CRUDE—The market was dull and weak to-day, not that the offerings were much larger than usual, but in consequence of the indications being favorable for a speedy resumption of navigation between here and Oil City. We can report a sale of 800 bbls, in tank, at 10¼; and it is said that there was a sale of 600 bbls "Smith's Ferry"—to be under 45 gravity—at 9½. There are some parties anxious to sell at 10½, to arrive on first water, but as our refiners generally, are pretty well stocked for the present, they seem disposed to hold off in anticipation that in the event of a resumption of navigation, there will again be pretty large arrivals, and that this oil when thrown upon the market, will cause a still further decline. A telegram from Oleopolis quoted at $3¾ at that point.

REFINED—There was but very little inquiry for bonded oil to-day, and from this fact it is fair to presume that the Philadelphia market is again "off." We now quote at 28½ to 29, free on board cars here, and 35 to 35½, delivered in Philadelphia—we can report a transaction which it was thought would be consummated, of 500 bbls for December, 500 for January, and 500 for February, all to be delivered in Philadelphia, and all at 35½. It was reported that 34½ was the best offer that could be obtained in Philadelphia for this month, though as yet, there are no parties here willing to sell at that figure. Free oil may be quoted at 50 cents for standard brands in small way.

—Since the above was put in type, we learn that the sale referred to did not go through.

ARRIVALS—There was but a single arrival of oil reported to-day, 375 bbls for Fisher & Bro.

Flour and Grain at Tide-Water.

The quantity of flour, wheat, corn and barley left at tide water on the Hudson river, N. York, from the commencement of navigation to the 7th of November, inclusive during the years 1865 and 1866, was as follows:

	Flour.	Wheat.	Corn.	Barley.
1865	704,200	6,378,100	15,142,600	3,193,300
1866	261,400	4,578,800	22,546,900	4,079,400
	Dec. 442,800.	Dec. 2,909,400	In. 7,403,600	In. 886,100

By reducing the wheat to flour, the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows a deficiency equal to 1,042,600 bbls. of flour.

MARKETS BY TELEGRAPH.

New York Financial Matters.

NEW YORK, Nov. 15.—Money 5@6 per cent. for call loans. Sterling exchange dull, at 108⅞@109¼, gold, for first class bills. Gold lower, opening at 144¾, advancing to 145⅛ and closing at 143¾. Government stocks dull. Stocks dull, and lower; Rock Island, 106; Illinois Central, 122; Cleveland and Pittsburgh, 88¾; Northwestern, 52¼; do preferred, 74½; Toledo, 112¾; Fort Wayne, 106¾; Alton and Terre Haute preferred, 70; Milwaukee and St. Paul, 58½; do preferred, 77½; Michigan Southern, 84¾; Michigan Central, 113½; Erie, 78¾; New York Central, 110⅜; Quicksilver, 51⅜; Western Union Telegraph, 50¼; Tennessee 6's, 71½; Missouri 6's, 87; 7-30's, 110¼; 5-20 coupons, of '65, 107½; do of '62, 109⅞.

The *Commercial's* money article says: The Money market is somewhat unsettled. There is an unusual diversity of rates among the banks, some lending at 6 per cent, while others offer large amounts at 5 per cent. The predominate rate on call is 5 per cent., with exceptions at 4 and 6 per cent. The present tendency appears to favor tenders. Foreign Exchange continues dull. Prime bankers' 60 days' sterling has been sold from second hands at 108⅜, but is apparently quoted at 109@109½. Governments are quiet but firmer. The Miscellaneous List is weak under a decline in railroads. Michigan Southern, Cleveland and Pittsburgh, Northwestern, and Reading are the especial objects of assault, and upon these stocks the decline has been most severe. Cleveland and Toledo fell at the board 2¾, and Fort Wayne 1¾.

The affairs in the Dry Goods market are assuming a semi-panicy aspect.

RIVER NEWS.

A heavy rain set in early on Thursday morning, and it continued almost without cessation during the day, and it looked last evening as if would last throughout the night. As a consequence, the river rose several inches yesterday afternoon, and by to-day we should not be surprised to find four or five feet water in the channel. Telegrams from Oil City report heavy rains at that point, with every prospect of a rise in the Allegheny, and as the rain is no doubt general, there will doubtless be a swell in the Monongahela river.

Owing to the inclement condition of the weather, business was almost wholly suspended at the wharf yesterday, and the Nora was prevented from leaving for Cincinnati as expected.

The arrivals include the Ezra Porter, from New Orleans, Amelia, Poe, from Cincinnati, and the Pine Grove, from Louisville. The Glasgow got up as far as the Glass House on Wednesday evening, where she was still at last accounts waiting for water. She will doubtless be able to reach the landing to-day.

The Robt. Moore, from Portsmouth, was due here last night, and the Quickstep, from Cincinnati is due here to-day. The Delaware was lying at the Parkersburg landing last evening, and the Forest City left for Parkersburg yesterday on time.

The Nora, Captain Devinney, will positively leave for Cincinnati to-day. The Silver Lake, Capt. Todd, is next in turn, and will at once commence loading for Cincinnati and Louisville.

The Armenia, Capt. McCallum, is announced for New Orleans; Camelia, Capt. Lytle, for Nashville, and the Sherman, Capt. Crane, for St. Louis. These are all good boats, and are in charge of experienced and gentlemanly officers.

It is probable that there will be water enough by this evening to let out one of the Allegheny river packets.

The Quickstep left Cincinnati for Pittsburgh on Tuesday, and the New State was next in turn. The America arrived at New Orleans, from Pittsburgh, on Monday last.

We clip the following from the Cincinnati *Commercial*, of Wednesday:

The boilers, doctor, &c., of the J. R. Gilmore was purchased at auction, yesterday, by Dumont, for $1,060.......The Quickstep picked up a fair trip for Pittsburgh.......We regret to announce that Mr. Sid. Milner, one of the mates of the Clifton, unfortunately broke one of his legs yesterday. He bears his misfortune with characteristic heroic fortitude.........Mr. Gus. R. Harms, formerly one of the well-known clerks in the Louisville Mail Line, was married at Chirst Church, in this city, last evening, to Miss Fannie L. Bobson, of of Newport, Kentucky.............Capt. Frank Y. Batchelor and Captain W. W. Collins have purchased the steamboat bakery of Mr. Alex. Goodwin, on the Public Landing, between Sycamore and Broadway.

Captain Wesley Davis, of the steamer John W. Garrett, was arrested at St. Louis, on Tuesday, on complaint of the clerk of the Board of Health, for bring to the city a pauper named Charles Copely. The Captain states that he shipped Copely as a deck hand at Portsmouth, Ohio. That on the voyage to this city, Copely took sick, and on arriving here was ordered to be sent to the Marine Hospitals; that for some reasan he has refused admittance into that institution, and was sent to the City Hospital. Captain Davis talks of suing the city for false imprisonment.

A New Orleans telegram, under date of Tuesday, gives the following details of the burning of the Henry Von Paul:

The steamer Henry Von Puhl, with 3800 bales of cotton, was burned at three o'clock this morning above Donaldsonville. The fire communicated to the cotton from the pipe of a deck hand, and was soon under full headway. The Captain ordered the boat to be run ashore, and acted with promptness and courage. The Pilot stood at the wheel until enveloped in flames, and the engineer did not leave his post until the steam pipes bursted, and then escaped. There were one hundred and one passengers, and a number of them being ladies, a wild scene of confusion and excitement ensued. Nearly all escaped on the boat reaching the shore. One passenger was burned, and several were drowned. The boat and cargo are total loss. The passengers lost all their baggage, many of them having only their night cloths. Among them were Col. Fisher and lady, of Memphis, who were on a bridal trip to New Orleans.
